- Microservices Architecture
- web3 Integration
- Payment Gateway Integration

Frontend
- Next.js
- React.js
- Vue.js
- Javascript
- jQuery
- Bootstrap

Database & Caching
- MySQL
- PostgreSQL
- MongoDB
- Redis

Cloud & DevOps
- AWS (EC2, S3, RDS)
- Server Deployment
- Git / GitHub / GitLab
- CI/CD (Basic)
- Docker (Basic)

AI & Emerging Technologies
- Python (Basic)
- LLM Integration
- AI Vectorization
- RAG Architecture (Basic)
- AI Tools Integration

LEADERSHIP & ACHIEVEMENTS

Led 2+ developers in multiple projects

Delivered 10+ production applications

Built scalable Orderbook trading platform

Managed deployment & server Infrastructure

Blockchain & Web3 platform experience

KEY PROJECTS

Orderbook & Web3 Trading Platform
- Built crypto trading Orderbook system
- Integrated Binance & Rybit APIs
- Smart contract integration
- High-performance backend architecture

Tech: Laravel, Node.js, Redis, React.js, Next.js, MongoDB, MySQL

Smart Accounting Software (SaaS)
- Multi-user accounting cloud platform
- Payment gateway integration
- Role-based access control

Tech: Laravel, Vue.js, MySQL

Marketplace Platform
- Multi-vendor e-commerce platform
- Admin and vendor management

Tech: Laravel, REST API, Payment Gateway

Condominium & Villa Management Platform
- Cloud-based property management system
- Google Maps Integration

- Role-based user management

Tech: Laravel, Vue.js, AWS
